

## ABOUT THE COMPANY

Manufacturing and trading company offering stainless steel elements. We employ highly qualified personnel and operate a technologically advanced machine park. This allows us to comprehensively implement entrusted tasks – from technical consultancy in the design phase and through the production process to assembly.

ATT is a team of engineers with extensive knowledge and passion combined with imagination and long-term experience. This combination of elements is reflected in the projects we develop and implement. Our comprehensive technical know-how corresponding to the realities in the construction industry and industrial facilities means we can optimally tailor solutions to meet the needs of individual customers.

The commercial division is made up of sales engineers who participate in the entire process.

They are present at each phase of implementation of an order: during the preparation of projects, production, assembly, and installation works, acting as technical advisers.

The scope of our operations is not limited to Poland or European countries. Our goods and services are used by companies from the United States, the United Arab Emirates, South Korea, and Australia, to name a few.

We prepare elements of equipment and installation systems for facilities of the food, gastronomic, chemical, and pharmaceutical industries. The majority of our products can be found on our website, and available in several language versions.

Our Products are also available in the United States and Canada through our partnership with Drains Unlimited Inc. on their website at [www.drains-unlimited.com](http://www.drains-unlimited.com).
